

nov_get_device_address

```
graph LR; A[nov_get_device_address] --> B[nov_memcpy]; B --> C[spi_put_data];
```

A flowchart illustrating a sequence of three operations. The first operation, 'nov_get_device_address', is highlighted with a gray background. It is connected by a dark blue arrow to the second operation, 'nov_memcpy', which has a white background. This second operation is then connected by another dark blue arrow to the third operation, 'spi_put_data', also with a white background. All three operations are contained within rectangular boxes with black borders.

nov_memcpy

spi_put_data
