

QCPCurve::setData

```
graph LR; A[QCPCurve::setData] --> B[QCPCurve::data]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text "QCPCurve::setData". A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "QCPCurve::data".

QCPCurve::data
