

QCPGraph::setData

```
graph LR; A[QCPGraph::setData] --> B[QCPGraph::data]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'QCPGraph::setData'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'QCPGraph::data'. Both boxes have a black border.

QCPGraph::data
