

QCPAxis::scaleLogBase

setupFullAxesBox

```
graph LR; A[setupFullAxesBox] --> B[QCPAxis::scaleLogBase]
```

A diagram showing a call from the `setupFullAxesBox` function to the `QCPAxis::scaleLogBase` method. The `QCPAxis::scaleLogBase` box is shaded gray, while the `setupFullAxesBox` box is white. A blue arrow points from the white box to the gray box.
