

QCPAbstractLegendItem
::setSelectedTextColor

```
graph LR; A["QCPAbstractLegendItem  
::setSelectedTextColor"] --> B["color"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'QCPAbstractLegendItem' on the first line and '::setSelectedTextColor' on the second line. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'color'.
